

**Celebrating that Christ is all and in all by seeking, inviting, belonging,
serving and reverencing God's creation**

Grace Giving Garden New Mission Statement

In the photo below you'll see the logo and mission statement of Grace Giving Garden. The logo is a shield holding a monarch butterfly, a symbol of God's transforming grace, and a golden cross acting as a beanpole to support a twining bean vine, a symbol of Christ our sustainer.

You'll also see our mission statement: *to grow and share God's bounty in fellowship and learning with people of all ages.* We have recently changed the statement to be inclusive of all people and to reflect our role as stewards of God's creation. It now reads *to grow and share God's bounty in stewardship, learning and fellowship with all.* This better expresses the focus on Creation Care at Grace Church, as carried out with devotion in the Grace Giving Garden.
